PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building responsive web applications using **React.js, JavaScript, Node.js, Express.js, and PostgreSQL**. Experienced in developing user-focused features, REST APIs, authentication, database-driven applications, CRUD functionality, and third-party API integrations through multiple end-to-end projects. Strong problem-solving mindset with a willingness to learn, take ownership, and contribute across the stack in a collaborative product environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, EJS

Backend: Node.js, Express.js, REST APIs

Database: PostgreSQL

Tools: Git, GitHub, npm, VS Code, Postman

Development: Authentication, CRUD Operations, Responsive Design, API Integration, Local Storage

Deployment: Vercel, Render

PROJECTS

BookHive Web App | [GitHub](#)

Node.js | Express.js | PostgreSQL | EJS | JavaScript

- Built a full-stack book-notes application with user authentication, profile pages, and database-backed functionality.
- Implemented **CRUD operations** for managing books and notes.
- Integrated the **Open Library API** to dynamically retrieve and cache book cover information.
- Implemented secure password hashing using **Bcrypt** and stored application data in PostgreSQL.
- Built automated email feedback functionality using a backend email service.
- Implemented dark/light mode and responsive user interfaces.

Kraft Konzeptz Business Website | [GitHub](#) | [Live Demo](#)

React.js | Node.js | JavaScript | Context API | Vite | CSS3

- Designed and developed a responsive business website for a fabrication and lighting company.
- Built interactive project galleries to showcase services, completed projects, and technical capabilities.
- Developed backend quote-request functionality with email notifications for customer enquiries.
- Implemented reusable frontend components and client-side state management using Context API.
- Focused on responsive design, intuitive navigation, accessibility, and clear calls-to-action.
- Deployed the application for public access.

Gold Jewelry E-commerce Website | [GitHub](#) | [Live Demo](#)

React.js | Vite | JavaScript | HTML5 | CSS3 | Local Storage

- Developed a responsive e-commerce application for showcasing and selling jewelry products online.
- Implemented shopping cart functionality allowing users to add, update, and manage products.
- Integrated an online payment solution to support customer transactions.
- Built product listing and product-detail pages with categories, pricing, images, and product information.
- Designed a mobile-friendly shopping experience with clear navigation and responsive layouts.
- Deployed the application for public access.

VIP Beauty Studio Booking Website | [GitHub](#) | [Live Demo](#)

React.js | JavaScript | Context API | Local Storage | Vite | CSS3

- Developed a responsive appointment-booking platform for beauty services.
- Built a multi-step booking flow covering service selection, preferred dates, and available time slots.
- Used React state and Context API to manage user selections throughout the booking process.
- Implemented Local Storage to preserve booking information across navigation and browser sessions.
- Added validation and progress indicators to create a clear and intuitive booking experience.
- Developed service, gallery, shop, and booking interfaces with responsive layouts.

GeoMindz Quiz App | [GitHub](#)

React.js | Node.js | PostgreSQL | JavaScript | CSS3

- Built an interactive full-stack quiz application that challenges users to match countries with their capitals.
- Implemented dynamic state management using React Hooks.
- Connected the frontend to a PostgreSQL database to dynamically retrieve country data.
- Focused on reusable components, responsive design, and clean user experience.

Foreign Recipes App | [GitHub](#) | [Live Demo](#)

Node.js | Express.js | REST API | EJS | JavaScript | CSS3

- Developed a responsive recipe discovery application for searching global meals.
- Integrated a public meal API through the backend to retrieve recipe data.
- Built a user-friendly interface focused on clear information presentation and responsive design.

Portfolio Website | [GitHub](#) | [Live Demo](#)

React.js | Vite | JavaScript | CSS3

- Designed and deployed a responsive developer portfolio to showcase technical projects and skills.
- Implemented smooth animations, dark/light theme switching, a typing effect, and a back-to-top interaction.

EDUCATION

Bachelor of Engineering

Federal University of Technology, Owerri, Imo State, Nigeria.
November 2016 – March 2023

Certificate in Full Stack Web Development

Udemy
October 2024 – August 2025

- Completed project-based training covering full-stack web development technologies and agile workflows.
